

Premier Logic 2018 High Five Awards

The Culture Committee is very excited to announce the 7th annual High5 Culture Award nominations for 2018! This contest usually is held at the end of each year, but it is usually so busy we thought it might be easier to have this take place at the beginning of the new year.

We know many of you have been working tirelessly, including lots of overtime, to help PL succeed on a number of key projects. In support of that, we want to be able to identify co-workers who exemplify our culture through the 5 character traits of our core belief system.

It wouldn't be an award without a prize, so the High5 Culture award winners will receive a trophy (to be proudly displayed on your desk!) as well as a gift card. While we aren't disclosing the amount on the gift card, we will say it's going to be very exciting for the winners! And may help you buy something very nice for yourself as a reward!

To make the High5 awards a success, we need your help! Please use the survey link below to nominate one of your co-workers for each of the five categories and include a couple of lines explaining why they are the right person for the award. Please remember that any employee or contract resource is eligible to receive this award.

Please vote for a different person in each category. There may be times when 1 person shows elements of a couple of the categories, but try to choose someone that matches the category the closest.

- Character: We hold our employees to a high standard of integrity. Our team members show trust, loyalty and respect to each other and to clients.

- Commitment: Our Clients come first and we are not afraid to provide feedback to them. We work as a unit and succeed or fail as a team. Premier Logic always follows through.

- Creativity: We encourage creating original ideas, thinking outside of the box and throwing the box away entirely.

- Community: We align ourselves with philosophies and projects that IMPACT the world in positive, lasting ways.

Premier Logic's foundation is centered around giving back to our community.

- Coaching: We believe in finding teachable moments and passing on valuable knowledge to our coworkers and clients.

* Required

Character *
